

Travel Smart. Bank Safe.

Whether you're heading to the beach, the mountains, or visiting family, a little preparation can help keep your personal and financial information secure while you travel.

Before You Leave

- ✓ Update your devices. Install the latest updates on your phone, tablet, and computer to protect against known security threats.
- ✓ Turn on device security. Use a strong passcode, fingerprint, or facial recognition to help keep your information safe if a device is lost or stolen.
- ✓ Enable "Find My Device." Tracking tools can help you locate, lock, or erase a missing device remotely.
- ✓ Back up important information. Save photos, contacts, and important files before your trip so you won't lose them if something happens to your device.

While You're Traveling

- ✓ Be cautious on public Wi-Fi. Avoid accessing sensitive accounts if a network seems suspicious. When possible, use your mobile data or personal hotspot.
- ✓ Think before you post. Sharing vacation photos in real time can signal that you're away from home. Consider posting your memories after you return.
- ✓ Keep devices with you. Don't leave phones, tablets, or laptops unattended in public places.

✓ Turn off automatic Wi-Fi and Bluetooth connections. This helps prevent your device from connecting to unknown networks without your knowledge.

After You Return

- ✓ Review your accounts. Check your bank accounts, credit cards, and email for any unusual activity.
- ✓ Remove unused travel apps. Deleting apps you no longer need reduces the amount of personal information stored on your device.

A few simple precautions can help you enjoy your trip with confidence. If you ever notice suspicious activity on your accounts, contact us right away.

We're here to help. If you have questions about a transaction, suspect you may have been targeted, or just want to learn more about safe banking practices, never hesitate to call us at 608.441.6000.

For additional security information, you can visit [Oak Bank's Security Information](#) on our website.
